

1 June 2021

## Launching of a New Industrial Division

Dear Partners and Clients,

Al Suhaimi Group Holding, a leading Saudi business conglomerate with diversified interests, has decided to work together with SRA Group to establish and develop an Industrial Products & Services Division. The newborn entity will complement and improve both businesses locally and internationally.

The vision is to have a new entity, fully aligned with the Kingdom's Vision-2030 by bringing together synergies of both groups and leveraging the Suhaimi Groups rich heritage in Saudi Arabian Industrial arena.

The new entity started its operations on 1st June 2021. The entity will complement and operate within the Suhaimi Pump Systems, the existing Pumps business unit of Al Suhaimi Group Holding.

This strategic alliance is key for both companies to address the needs associated with the fast-growing Saudi economy, in various sectors but not limited to Oil & Gas, Power, Petrochemical, Marine, Mining and Infrastructure and become trusted partner and supplier for Industrial Products and Services in Saudi Arabia.

We are confident that this new venture will add value to all our partners, help them increase the footprint, market share, enhance client experience, and open new opportunities in the Kingdom of Saudi Arabia.

At this key milestone in our journey, we are thrilled to continue doing business with our esteemed partners and clients, and we truly value your continued support.

Yours sincerely

**Anel V Thomas**  
Manager-Industrial Division
